Full statewide rollout expected 2019

Coming for the statewide rollout

During the Digital Driver Licence trial, various industries have indicated the need to easily identify whether a licence holder is under the age of 18.

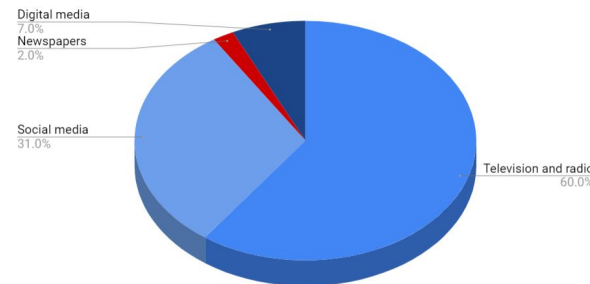

As a result, we have added an "Under 18" notification next to the Date of Birth, as shown in this image. This age indication will disappear once a holder turns 18.

Please note, this feature will be visible once the Digital Driver Licence is available statewide. It is not part of the trial digital licence.

An updated quick reference guide will be distributed for the statewide rollout to include the Under 18 feature.

Digital Driver Licence in the Media

From 15 May 2019 to 28 June 2019 there have been 475 media stories related to the Digital Driver Licence due to the trial in Albury and NSW Government budget announcements. The chart below highlights the types of media coverage with the majority, 60%, being covered by television and radio.

Sentiments from consumers on our social media channels include:

- "I can't wait to get my hands on a digital drivers licence"
- "Wow!! Digital Drivers Licences are set to be rolled out after a successful trial! Are you going to get yours?"
- "I don't carry a wallet it's great to be able to access my identification, instantly on my phone."
